

Urban Action Group & Urban resilience in a climate adapting world

Nektarios Chrysoulakis (FORTH)

Iphigenia Keramitsoglou (IAASARS/NOA)

Evangelos Gerasopoulos (IERSD/NOA)

#EGW2022

ATHENS 7-9 DECEMBER 2022

#Urban

FACTS

- Prod(active) participation from **30** organizations/ companies/ municipalities
- Speakers from stakeholders, data/service providers, projects, nexus domains
- Consensus among participants that the urban domain is a **pressing and important, cross-cutting field** for EU and that EO can have a key contribution

#Urban

ACTIONS

- Identify and approach **city networks** and competent **stakeholders**. Get them be aware of and involved in EuroG(EO)
- Develop a **portfolio/catalogue** of requirements vs solutions including relevant policies
- Identify and prioritize the **hot topics, i.e.** climate change (adaptation/mitigation), resilience, disasters, energy, health, cultural heritage
- **Bridge the gap** between service-solution providers and cities/stakeholders
- Planning for **regular convening of the Urban Action Group**
- Strong representation of EuroGEO in the forthcoming **Resilient Cities and Human Settlements Working Group**
